Revision Policy

Every project is allowed 2 rounds of revisions.
Additional charges will be applied for every subsequent round.

Audio & Video Editing

Got a hard-drive of video files just waiting to be turned into a cohesive story? I've got you covered. From audio cleaning to color-grading, I can take you from raw footage to final cut lickety-split.

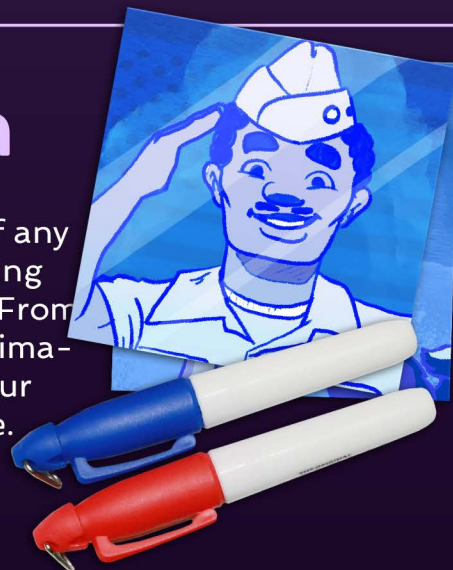

Illustration

Sometimes custom images are a must. From vector to traditional, I can produce images in any style you need. Not sure what kind of illustration works best for your project? No problem! We can figure it out together.

Animation

Movement is the driving force of any film project, and gorgeous-looking motion is one of my specialties! From motion graphics to character animation, I can produce video that your audience won't be able to ignore.

Compositing

Moving around graphics on screen can get your message across just fine, but grounding that message in the real world can really turn people's heads! Want to carve your logo into the side of a mountain? See it float through the scene as a bubble or balloon? Anything you can dream up, I can help you make it a reality!
